Etc.

SPECIAL DISPLAY OF

McLaughlin's -:- Children's -:- Books!

THE LEGISLATURE.

119TH DAY.

WEDNESDAY, NOV. 9, 1892.
Afternoon Session.

The Assembly re-convened, from recess, at 1:30 o'clock.
Noble Pua presented a minority report from the Sanitary Committee on petition relating to detention of lepers at Kalihii to await arrival of specialist from Sweden, recommending the adoption of the same. Tabled for consideration with majority report.

Rep. Wilder, from the Committee on Commerce, presented reports on various bills, etc., as follows:
(1) To encourage fruit raising and canning by remission of duties on canning material. The committee favor the idea presented and present the same in a substitute bill (192A) which they recommend pass. Report tabled for consideration with bill. (2) A petition to have duties remitted on tools and machinery used for canning purposes. The committee recommend the prayer of the petitioners be granted. Report tabled. (3) Bill 186, relating to re-registration of lepers. The committee recommend that the bill pass. Report adopted; bill to engrossment and for third reading on Saturday next. (4) Bill relative to remitting the duties on material used in making soap. Committee recommend that the bill pass. Report adopted; bill to engrossment and for third reading on Saturday next. (5) Bill to authorize the appointment of mail clerks on inter-island steamers. Committee were opposed to the bill on the ground of expense; recommended that the bill be tabled. Adopted.

Noble Thurston, from the Public Lands Committee, reported on a petition from J. W. Robertson, praying for the payment of \$286 for material and labor furnished the railroad running to the Waikiki stone-crushing grounds; and \$72.68 for labor performed on a bridge at Waialua. The committee consider the claim just, recommend the payment and that the petition and report be tabled for consideration with the Appropriation Bill. Adopted.

Noble Marsden, from a special committee, reported on the bill relative to regulating the hours of labor of Government employees and recommended the passage thereof. Report tabled for bill.

The same member from another special committee reported on Bill 42, relating to the amendment of Sec. 1492 of the Civil Code, relating to contract laborers. They recommend that the bill pass. Report tabled for bill.

Noble Marsden, from the same select committee presented a minority report on Bill 149, relative to the revision of the law known as the Masters and Servants Act, relating to advances to contract laborers. The minority recommend the bill pass. Report tabled for majority report.

Noble Thurston, from a special committee, presented a partial report in re the item of \$36,000 for subsidy to the Oceanic Steamship Co. The recommendations in the report presented were, that \$24,000 be paid for the usual biennial service and \$12,000 more if the steamer Australia touched first at Hilo on route hither. The committee stated that there were some prospects of the steamer Zealandia coming hither on December 6th. Noble Baldwin in connection with this report favored \$30,000 for the regular and \$6,000 extra for the Hilo trip. Noble Hind and Rep. Ashford have yet a report to present, so this, presented, was tabled pro tem.

Noble Williams, from the special (Water Works) committee having consideration of the claim of L. Ahlo for services, reported adversely thereto. Report adopted.

Rep. Kamaooha, from a special committee, having consideration of Bill 5 relative to the segregation of lepers, reported a new bill, No. 5a, which they recommend pass. Tabled for a minority report.

Rep. Smith presented from the special committee having consideration of "taro blight" matters, a lengthy report including observations of Prof. A. B. Lyons of Oahu College. The committee recommend that the sum of \$500 be placed at the disposal of the Minister of the Interior for further investigation. Tabled for future consideration.

Noble Thurston, from the Committee on Public Lands, under suspension of the rules, reported on the Boundary Commission Bill and recommended its passage. Report adopted, bill to engrossment and for third reading on Saturday next.

Under the head of Resolutions Rep. Kapahu propounded questions to the Minister of Finance relative to the business transactions connected with the purchase of a house in Kau, Hawaii, by Hon. C. R. Bishop, the sale thereof to the Board of Education, and the lease to a certain person.

Noble Young, under suspension of the rules, read for the first time by title a bill to authorize the Hawaiian Government to contract for the construction of an electric submarine inter-island cable. Referred to a special committee consisting of Nobles Thurston, Young and Hind, and Reps. Wilder and White.

At 3:15, on motion the Order of the Day came up, bringing forward for consideration the second section of the Appropriation Bill.
The first paragraph of the section, which designated the total amount, the sources from which the money to be expended was to be obtained, etc., was changed by striking out the total presented, leaving the amount, for the present, blank.

The first item considered was in the Department of Foreign Affairs, and read "Education of Hawaiian Youths abroad, \$10,000."

Noble Marsden moved reference to a select committee.
The Attorney-General opposed reference. He considered the item as well as others should be passed over for the present. He could not un-

derstand how items in section 2 could be taken up for consideration when section 1 of the Bill had not yet passed its second reading.

Noble Thurston favored reference to the Minister of Foreign Affairs. There were now only two wards of the nation abroad. One of them was in London and the country had paid for his education and expense for the last ten years. The other was in Boston since 1887. The young man in London was married.

Noble Baldwin favored reference to the Minister of Foreign Affairs. The reports from the London protégé were excellent, and he personally had seen the young man when there. He was satisfied that if Noble Thurston had followed the matter up more closely he would have been better satisfied.

Noble Thurston said (sotto voce) that he had followed "the matter closer than you have."
Rep. Robert Wilcox said that the remarks of Noble Thurston indicated the desire to simply give Hawaiians a half an education. Every effort was being made to stop the advancement of Hawaiians in the way of knowledge and to prevent them from having any prestige in their own country. This sort of action was what made the Reform party so unpopular in 1887 when they caused the recall of youths then studying abroad. The action was one which could only come from a black-hearted man.

Noble Thurston would suggest to the last speaker that he take a drink of ice water and cool himself. He (Wilcox) should keep his shirt on. He had no objection to Hawaiians being sent abroad for education. He considered, however, that they should pay for their education. His education abroad had extended for only one year and a half but he had paid for it himself. His remarks were brought out when he considered that for 12 years past one young man has been enjoying the patronage of the country to the detriment of others. He considered that after 12 years of education there should be opportunity given to some one else.

On motion the item was referred to the Minister of Foreign Affairs. Item, Relief of Indigent Hawaiians \$5000 was brought forward.

The Attorney-General again objected to the consideration of items in this section on account of being out of order.

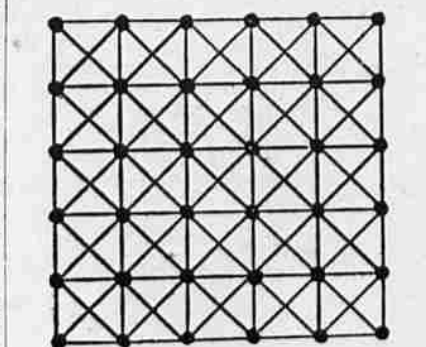

Noble Thurston considered that the Attorney-General did not know what he was talking about.

Pending action, at 3:55, the Assembly, on motion, adjourned.

THE BEST PLASTER.—Dampen a piece of flannel with Chamberlain's Pain Balm and bind it on over the seat of pain. It is better than any plaster. When the lungs are sore such an application on the chest and another on the back, between the shoulder blades will often prevent pneumonia. There is nothing so good for a lame back or a pain in the side. A sore throat can nearly always be cured in one night by applying a flannel bandage dampened with Pain Balm. 50 cent bottles for sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

THE PIN PUZZLE

There is a new Puzzle out. This innocent-looking brain tormentor is called the Pin Puzzle, and anybody can make one for himself with a bit of paper and pencil and six pins. Here is the diagram:

The object is to stick six pins on six of the black dots in such a manner that no two pins shall be on the same line, either horizontal, vertical or diagonal.
Although it may be difficult to work out this puzzle, still there is no difficulty in understanding or appreciating the Policies issued by the EQUITABLE LIFE ASSURANCE SOCIETY. They are clear, business-like, concise and simple.

HOTEL

PARK

ANNEX

THE ROYAL HAWAIIAN HOTEL CO. has leased the property belonging to A. Herbert, Esq., in Waikiki, which for the present, will be open to the public as an annex of the Hotel, and will be known as the "Hotel Park Annex." Besides the main house there are Three Cottages admirably adapted for families:

1.—The "Windmill Cottage" containing 5 Rooms, Kitchen and Lanai.

2.—The "Green Cottage" containing Parlor, 4 Bed Rooms, Kitchen, Pantry, Bath Room, etc.

3.—The "Seaward Cottage" with 4 Good Rooms and a Dressing Room.

All the Cottages are well-appointed in Furniture, Fittings, etc., and tenants will be entitled to bathing privileges. The sea bathing being unsurpassed on the Island.

The Main Building will be reserved for the use of the guests of the Hotel, but it may be rented for Picnics, Bathing Parties, Dinners and Dances, etc., for all which purposes it offers exceptional advantages. A charge of Twenty-five (\$25) Dollars will be made for the use of the House and Grounds including Bathing, Lights, etc.; preparation is required for intended use of the Main Building and Grounds.

For further particulars application should be made to the Manager of the Royal Hawaiian Hotel.
